21. Jake has to buy enough fencing to enclose the rectangular garden shown above.

The formula for finding the perimeter of (or distance around) a rectangle is $P = 2l + 2w$, where P = perimeter, l = length, and w = width. Using the values from the drawing, what is the perimeter, in meters, of the garden?

Dave	Eric	Travis
500	$3x$	x

From the information, you can write the equation $3x + x = 500$. How many cards does Eric have? (Hint: Solve for x . Then find how many cards Eric has.)
