

Example 2

Find the volume of the following shapes.

$$\begin{aligned} V &= L \times W \times H \\ &= 8 \times 3 \times 2 \\ &= 48 \text{ cm}^3 \end{aligned}$$

$$\begin{aligned} V &= \frac{1}{2}bh \times L \\ &= \frac{1}{2}(3)(4)(7) \\ &= 42 \text{ m}^3 \end{aligned}$$
